AS A CONTRACTOR

As a General Contractor, Our Service begin with pricing. We bid out the job in predetermined packages, and verify the validity of the bids using our extensive cost histories. During actual construction , we manage the day to day activity on the job, including safety, quality control and adherence to the schedule. We also providing bonding for the project and hold all subcontractor contracts, unless instructed to the otherwise by the owner. We have the ability to self- perform many aspects of our work, giving us greater control over the schedule and allowing us to truly drive the project.

PRECONSTRUCTION SERVICES

We work with the owner and the design in the early phase of drawings, to provide value engineering for sitting, Constructability budget and scheduling. Within our preconstruction services, we act as a budget and scheduling. Within out preconstruction services. we act as a value -added member of the design team, enhancing the design segment of the job by providing accurate pricing information and marrying the budget to the actual design.

By incorporating items such as sustainability and maintenance cost into our design review, our suggestions can often save the owner money well into the future. Our pre-construction team works to reduce the overall project cost by saving time. Labor and expenses. The result is a building designed to the owner's specifications, within budget and with no surprise.

SAFETY

The only way to work !" That is the motto by which we live, We are committed to safety above all else, and this commitment to is central to everything we do. Our proactive approach create value for our clients and safeguards our most important assets: our employees. Our entire team is dedicated to maintaining a safety-focused and environmentally sound business; our safety culture is promoted by each member of our team through planning, Implementing. And evaluating safety. practices on daily basis. Our safety program is proactive and action- prenticed. Everyone from management to trades people are involved in making a zero incident workplace a reality. We use daily pre-task planning sessions, ongoing safety inspections, weekly safety meeting, safety seminars, special equipment training, safety manual reviews and email update to assists in attaining our goal of zero incidents

HSE POLICY

بوابة الشام للإنشاءات الهندسية

**BWABT AL SHAM ENGINEERING
CONSTRUCTION**

HSE POLICY

BWABT ALSHAM ENGINEERING CONSTRUCTION Health Safety and Environment Policy Statement clearly and unambiguously reflect the commitment of the company to maintaining health safety and environment (HSE) conservation according to the ISO 14001:2004 Environmental Management System and BS OHSAS 18001:2007 Occupational Health and Safety Management system.

BWABT ALSHAM ENGINEERING CONSTRUCTION aims to comply with accepted international practice and the requirements of all relevant health safety and Environmental legislation of the Dubai including but not limited to Municipality and Client HSE Regulations.

Encourage the active participation of all employees in the control of health safety & Environment conservation. This will be done through the provision of planning, Leadership, Effective communications and training.

- Ensure that potential HSE risks associated with all our activities are identified and assessed as early as practicable to minimize the risk.
- Regularly review performance and to continuously improve effective health, safety and environmental management system and standards to reflect best industry practice. The ultimate aim is to reduce the occurrence of accidents as far as is reasonably practicable.
- Comply with requirements of appropriate regulations and international codes of practice. Take appropriate action to safeguard people, the environment, and assets.
- Solicit and ensure the active participation of suppliers and sub-contractors as necessary to promote the policy.

“Welcome ! To Our World Of Modern Construction”

FROM THE BEGINNING

In 2010, Mr.Musaab Abdan was working in a small contracting company when he decided to establish Bwabt Al Sham. The first step was not easy. No capital, labors, office....He worked hard. As they said “He start from zero “Now, Bwabt al sham working with 1.23 million AED than 35 skilled labors, 65 labors and A good number of machines and equipment.

We aim not only to obtain your current business, but to make you a lifetime partners of ours for each project of ours, we introduce high levels of general and projects management high quality of finishing, rapid delivery and value engineering. We believe in modern methods of construction and design. That's what make us different.

We manufacture high quality engine- Ered solutions to our client's needs. We depends on mutual trust between The team and the client, smooth com- Unication between the site and the Office

MOVING TO THE FUTURE

Bawabt al sham group is now more than halfway through its five-year strategy. Initiated in 2010. The strategy is known as Shared Vision and Aims to rebuild the company.

Bawabt al sham group's main objectives are:

- To lead the contracting in creating value for our customers and sales channels.
- To refocus on the value we offer our dealers.
- To increase our rate of delivery.

The situation facing all contractors is that they are pressured from many quarters by customers and competitors. Bawabt al sham group meets that challenge with a determination to bind consumers. It continues to be Bawabt al sham group's primary purpose to supply best materials with less costs. At the same time the group will continue to improve its growth to face the competition.
